Statewide Department of Land Conservation and Development goals which do not apply to the Planning Area or resource management opportunities include the following: Goal 4: Forest Lands; Goal 10: Housing; Goal 14: Urbanization; Goal 15: Willamette River Greenway; Goal 16: Estuarine Resources; Goal 17: Coastal Shorelands; Goal 18: Beaches and Dunes; and Goal 19: Ocean Resources.

The RMP is also consistent with the following Division of State Lands asset management prescriptions for state lands:

Rangelands will be managed to ensure forage yields for livestock grazing consistent with BMPs. Grazing levels may be adjusted, in consultation with lessees, on both trust and nontrust lands to protect rangeland health and the long-term value of the land.

Rangelands will be managed to prevent human-induced loss of rangeland health. Work with lessees to continue to implement rangeland practices that maintain, achieve or restore healthy functioning ecosystems and maintain, restore or enhance water quality.

Special interest lands will be managed primarily to ensure the protection of unique scenic, wildlife, cultural,

natural or recreation values. Revenue generation activities will generally be permitted only if they do not adversely impact these values.

Land owned by the land board will be open to mineral exploration and development subject to existing laws, regulations, and management plans. Land will be open to mineral activity unless the proposed use (1) would have significant adverse and nonmitigable impacts on watershed integrity, and natural, cultural, and archeological features, (2) be located within a WSR, state scenic waterway, or similarly designated area, or (3) the proposal would not be permitted under the appropriate management plan.
